Forecast for Wednesday 13 Dec 2023

Weather: Well scattered snow showers possible at first but mainly dry with clear skies, a frost around daybreak with a few mist patches in the glens. This will leave the day dry and bright with some weak winter sunshine. Cloud gradually thickening and lowering during the evening, some rain and snow possible by midnight.

Chance of cloud-free hill tops above 800m: 80%

Low Cloud and visibility: Nil significant cloud during daylight hours, but patches or occasional cloud, base 600 to 900m early and late in the period. Visibility mostly very good or excellent, but moderate to very poor in rain, snow and cloud early and late in period.
